SUMMARY

Currently a passionate tech educator and trainer with experience as an instructor/mentor for non-it students on programming basics and soft-skills at Luminar Technolab. Provides simple to understand lessons that break down complex topics into easy to learn and understand lessons for beginners. Continues to learn and teach.

EXPERIENCE

R&D ENGINEER, Luminar Technolab   JAN 2024 – Present
- Break down complex technical topics into beginner-friendly lessons, focusing on foundational understanding.
- Prepare structured lesson plans, hands-on labs, and beginner-level projects to reinforce learning through practice.
- Motivate and mentor students to build confidence in coding and prepare them for entry level developer roles.
- Collaborate with senior trainers to research and develop updated content based on current industry trends.
- Explore and experiment with emerging tools and frameworks to propose enhancements in training modules.

MEARN STACK INTERN, Luminar Technolab   JUL 2022 - FEB 2023
- Assisted in the development and maintenance of web applications using MongoDB, Express.js, Angular, and Node.js.
- Collaborated with developers to design RESTful APIs and integrate them with front-end components.
- Wrote reusable, testable, and efficient code for both client and server-side applications.
- Debugged and resolved issues in existing codebases and optimized performance.
- Contributed to UI/UX improvements using Angular components and responsive design principles.

JUNIOR SOFTWARE DEVELOPER, Sprintline Pvt Ltd   OCT 2021 - JUN 2022
- Developed and maintained front-end and back-end components using HTML, CSS, JavaScript, C#, and SQL.
- Database Integration: Design and implement database schemas, write SQL queries, and integrate databases (e.g., Microsoft SQL Server) with the application to ensure data storage, retrieval, and manipulation..
- Unit Testing: Write and execute unit tests to ensure the functionality and reliability of code. Use testing frameworks and tools to automate testing processes
- API Integration: Work with REST APIs to connect external services and implement dynamic features

EDUCATION

MCA (Dual Degree)- De Paul Institute of Science & Technology, Angamaly   AUG 2016 - MAR 2021
- GPA: 7 / 10

SKILLS

Programming & Markup Language: HTML, CSS
Frameworks & Libraries: React, Bootstrap
Database: SQL
